

Benefit Communication and Engagement Tool

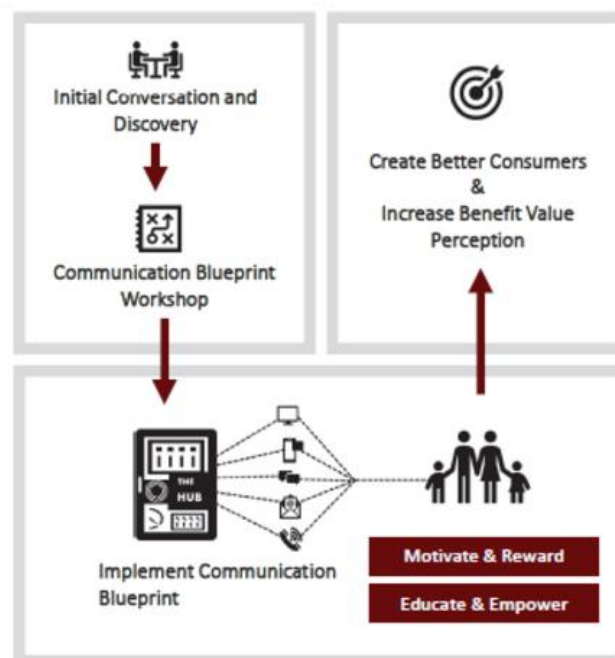

Benefit Communication and Engagement Tool is part of E³ Employer Solutions™

E³ = Encourage. Empower. Exchange.

How does your staff deliver year-round communication to your workforce?
They don't... but our platform *does!*

Historically, benefits communication occurs only around open enrollment time. Why? Because, communicating year-round takes time and resources most employers don't have. Our platform eliminates these challenges and delivers your messages directly to your employees and their dependents.
